A Project Update from
The Douglas Company

Orange Lake Country Club

Kissimmee, Florida

Architect	Cuhaci & Peterson
Total square feet	230,896
Cost per square foot	\$46.30
Completion	11 months

Orange Lake Country Club

Kissimmee, Florida

The Douglas Company was chosen, once again, by Orange Lake Country Club and Resort, this time to construct twenty-five timeshare condominium buildings containing 150 units. These buildings were nestled into the North Village in close proximity to occupied units, which required extra sensitivity on the part of The Douglas Company and its subcontractors to avoid disrupting the resort guests.

These spacious two and three bedroom units feature golf course views, full-size kitchens, whirlpool tubs and built-in entertainment centers.

This \$10,907,186 million project was completed in only eleven months, which is attributed to close coordination and cooperation between Orange Lake's Director of Construction, Ralph Bailey, and The Douglas Company management team of Senior Project Manager, Mark Newman and Superintendent Buzz Lewis.
