QUALIFICATIONS

Mr. Reaves has had a career of more than 38 years, from entry level engineer through management of independent business units to his current position leading The Douglas Company's Southeast Region. His experience is comprehensive, with projects successfully executed both in the United States and abroad, and covering various market sectors, including residential, hospitality, healthcare, and senior living.

He is known for his leadership skills and maintaining strong project stakeholder relationships, as well as his expertise in preconstruction, scheduling, project management, and cost control.

As Executive Vice President, Mr. Reaves is directly responsible for all operations in the Southeast Region. He is a fully engaged leader who is intimately involved in the development, construction and successful completion of all projects and takes a proactive role in maintaining positive client relationships. He also serves as a member of The Douglas Company's Executive Committee and participates in setting overall company policies and direction.
