#### QUALIFICATIONS

Mr. Douglas began his career with The Douglas Company in 2011 as a Project Coordinator. He led teams to put in place over \$100 million in various types of construction and earned promotions up to the role of President. Prior to serving as President, Bruce was the Executive Vice President, leading our Construction, Estimating, and Business Development teams for all Midwest Operations

As President, Mr. Douglas assumes an active role with each estimate prepared and closely monitors the progression of every project, ensuring a collaborative approach to leading projects from the design phase through the construction phase. He sets projects on a path for success by providing expertise on cost, schedule, logistics, constructability, and other key factors. He is also an integral part of The Douglas Company's extensive Process Training and Quality Assurance programs and is responsible for establishing company goals and policies, maintaining relationships with clients, and overseeing all corporate administrative functions.

Mr. Douglas currently serves as a member of The Douglas Company's Executive Committee, establishing company policies and participating in the development of company strategies and objectives.
